## Haiti Outreach Ministry of Evangelism

### King's Ridge Demonstrates Service

The first week of September was a busy one for LUKE 101. King's Ridge Christian School in Alpharetta, GA took a scout team to Haiti. Callan, Patrick, Olivia, and Ana Kate began working as soon as their plane landed. Bagging rice and beans for distribution at a church in Canan was the first of many activities that kept them busy during their short visit. The team taught two VBS programs, helped kick-off two new soccer teams in the communities of Bonnett and Canan, and visited with families and children. Callan gave a devotion to the church in Canan, challenging the congregation to multiply the Kingdom by serving their neighbors. The message was well received with lots of energy and graciousness. King's Ridge is excited to announce they will be returning to Haiti in February and June!

## Clean Water

HOME purchases water through Foundation for Peace to be delivered to the aging home in Port au Prince. The HOME team visits there regularly to take food, love and the gospel. They are pictured here with the Mayor of PAP who is trying to make new strides to improve the conditions and help the patients in the home.

### **Alix Provides Meds and a Smile**

Alix Valisaint visited a young girl from his Canan Kids Club who was in the hospital. Stephanie was diagnosed with anemia after fainting during kids club. She and her mother live alone and do their best to get work for food. Her anemia is a result of malnutrition. Alix was able to visit Stephanie and her mom at the hospital and HOME provided the funds for her treatment and medications. After five days, she was released from the hospital with a smile and a meal from Alix! HOME will continue to provide supplements to Stephanie.

## Soccer Expands

King's Ridge had the pleasure of distributing cleats, shin guards, and socks to the new teams in Bonnett and Canan. A big THANK YOU to our new supporters, the Reeves family!

## First Day of School

First and second graders Alexandra and Medeline were able to enroll in school for the first time thanks to a donation from Moses Kids Club. These little girls are so thankful for the opportunity to work for an education. Girl power!

## Prayers for Tania

Fahina and Ribinson visited twelve year old Tania when she returned to the orphanage after a visit to Partners in Health Hospital in Mirbalais. Tania suffers from a heart condition that was recently diagnosed but not yet treated. Keep her in your prayers as the HOME team seeks the appropriate professionals able to treat her condition.
